Motion to Review

Motion to Review '2022-2024' Documents:

- To bring about collaboration and a more deliberative process to the construction of the MNGOP's ByLaws, Constitutional, Platform and Convention Rules: It is to be moved that a review of the 2024 documents be done with the 2022 documents as guiding principles to create a more uniform process for modernizing the MNGOP operational structure with a mind set toward clear communications internally and with the Party's public image.
- It is also separately to be moved that former 2024 Chair(s) of those committees and members be allowed to join and be invited into the collaboration process of the new documents being created.
